## AUSTRALIAN ART EDUCATION

Is devoted to the peer reviewed scholarly examination of issues in the field of art education. Manuscripts that deal with significant art education topics are welcome, as are contributions from people working in areas other than art education. The journal is interested in philosophical and historical material as well as research studies. Papers dealing with the development of new theoretical approaches to the understanding of issues in art education and visual culture are especially welcome. Articles are refereed through blind peer review by members of the editorial board.

AUSTRALIAN ART EDUCATION is published twice a year and sent to financial members of Art Education Australia Inc. formally Australian Institute of Art Education. Electronic copies of this journal Volume 32 are available on the AEA website [www.arteducation.org.au](http://www.arteducation.org.au) for subscribers only. The opinions expressed in the articles are those of the writers themselves and do not necessarily reflect those of Art Education Australia Inc. Future issues may include art education monograph reviews and art education links/reviews.

## NOTES FOR CONTRIBUTORS

Two versions of the manuscript must be submitted either electronically as an email attachment or on disk. Include a letter stating that the manuscript has neither been published nor submitted for simultaneous consideration elsewhere. The edited manuscript must be returned within two weeks with the editorial changes completed with the AEA Style Guide instructions strictly adhered to. If the guidelines for submission are not followed it may delay the publishing of the manuscript.
