

Eksperimenta!

Eksperimenta! is a unique and first ever international event that develops critical and creative thinking in society through the unification of contemporary art and art education. What is unique about E! is that 14-19 year old youngsters are given the chance to work with professional artists and by the "game rules" of professional art exhibitions. See more: <http://www.eksperimenta.net/eksperimenta/exhibition-2011/concept/>

The first Eksperimenta! triennial takes place in Tallinn on April 26th - June 14th 2011. Located at the famous Song Festival grounds, where Estonian Singing Revolution took place 20 years ago, E! represents a similar breakthrough, this time through education. The topic of 2011 E! is "Space". The exhibition will show the interpretations of space by young pre-professional artists from 14 countries: Canada, Portugal, Germany, Slovenia, Bulgaria, Turkey, Lithuania, Latvia, Estonia, Finland, Russia, South Korea, Ireland and Iceland.

We are welcoming you to Eksperimenta! opening week from 26th - 30th of April. During the opening week we will conduct **IDEA laboratory training courses, workshops and seminars in Tallinn on 28th - 30th April 2011**, where we invite all art educators

and school students in the age of 14 - 19 to participate and observe. The virtual centre of IDEALab is the internet environment www.eksperimenta.net, where all art educators are invited to upload documentation of their best practices and discuss about the integration of contemporary art and art education. See more: <http://www.eksperimenta.net/idea-labs/>

E! is initiated and organised by art studio Sally Stuudio and belongs to the programme of Tallinn European Capital of Culture 2011.
